S COUNTRY SHUTTERS

Country Shutters, the home of beautifully made shutters & blinds.

Country Shutters
has evolved from
an architectural
and interior design
background, spanning
some 20 years.

We pride ourselves in providing a professional and bespoke shutter service to all of our customers. We supply all of our clients with illustrative drawings to show how your shutters will look in your home.

All of our shutters are made to measure exclusively for each customer. We use two factories to manufacture our shutters. Nien Made are the world's largest manufacturer of plantation shutters and they are based in China. Our Limewood range of shutters are handmade in our European factory, which use locally grown Basswood, responsibly sourced. We guarantee these from defective manufacture for 3 years. As we manufacture our shutters in Europe our delivery time is 4-5 weeks.

Shutters not only enhance your home, they are a complimentary addition to any room. They are now a popular Window dressing in the UK, having originated from plantation houses in the southern US states. We offer a complete and professional home service for all of our clients.

Shutters

Full Height Shutters

As the name suggests this style covers the whole of the window and provides beautiful symmetry with a clean and sophisticated look, this can add a real wow factor in large rooms. This is the most popular style, we fit across all ranges and can be supplied with or without mid/divider rails. The mid rails can be central or offset to match horizontal glazing bars and provide enhanced light and privacy control.

Cafe Style

Stylish and cost effective use of shutters. Creating privacy at a lower level and allowing plenty of light through the top of the window. Most commonly used in ground floor reception areas and bathrooms.

Tier on Tier

Two sets of Shutters installed one on top of the other in the same frame with the split generally in line with a horizontal glazing bar on the window. Independent panels top and bottom give greater versatility of light and privacy. Each panel opening separately.

Tracked

Tracked shutters are ideal for use over French doors, patio doors, bi fold doors or any wide aperture where the panels are fitted at floor level. We have also installed fixed louvered panels as room dividers.

Bifolds are perfectly designed and fitted for uninterrupted views of the garden, our tracked bifold shutters work well in conjunction with bi-fold doors. The tracked systems allow the shutters to concertina to the side and bring a little of the outside into your home.

Bay Window

Bay windows are notoriously difficult to cover, however, with our experience, no matter the size or complexity of the window, we have the perfect shutters from our range of frames and T posts, offering a great view from inside as well as outside.

We offer 2 types of bay shutter, a square bay with 90 degree angles and the splay bay which typically has by posts at 135 degrees. These can be configured as full height, café style or Tier on Tier. Available in most materials.

Solid Shutters

An alternative to standard shutters. Choose from solid raised shutters that offer near blackout and enhanced insulation from noise, or solid base/louvered top shutters ideal for covering half glazed doors.

Special Shapes

From port holes to arches, our shaped shutters create stunning effects utilising the window portrait. No matter how impressive the scale, our shutters can be designed to fit.

Available in most materials. Bay windows are notoriously difficult to cover, however, with our experience, no matter the size or complexity of the window, we have the perfect shutters from our range of frames and T posts, offering a great view from inside as well as outside.

Blinds

"Lovely finish to the blinds and it's best thing I've done for my windows...".John Wheeler

Venetian Blinds

To compliment our shutter range, we also offer an excellent range of made to measure venetian blinds made from the same Basswood as our shutters. Our wooden and privacy venetians are made from quality renewably sourced Basswood, supplied with an extensive selection of over 200 wood stain finishes and painted colours. These have been especially chosen to reflect both current trends and endearing favourites. We can supply with and without tapes. Our blinds are manufactured here in the UK, to international standards and child safety compliant BS EN 13120:2009. Our blinds are made to measure to fit perfectly within your window recess. All blinds will be fitted with child safe breakaway consolidators, giving you peace of mind.

Next day service available on Expression and Wooden Venetian range.

Expressions

Our budget range of Expressions venetian blinds are manufactured from composite plastic and have a real wood finish. Available in a range of louvres 35mm, 50mm and 63mm. Available in a choice of colours and tapes.

Wooden

Our Wood Venetian Blinds are manufactured here in the UK from the same wood as our shutters, which use locally grown Basswood Trees, responsibly sourced. The wood is then kiln dried on site and made to your order. This gives a great finish to our venetians and exclusively made for you. Optional tapes available. Available as 50mm and 63mm louvres.

Privacy

Our Premium Wood Venetian are handmade in our European factory, which use locally grown Basswood Trees, responsibly sourced. The wood is then kiln dried on site and hand made to your order. This gives a great finish to our venetians and exclusively made for you. Our unique manufacturing allows real privacy, with only a very small pinhole on the back of the louvre, attaching to the tilt cord. These limits the amount of light penetration and gives a unique look when closed. Optional tapes available. Available as 50mm and 63mm louvres.

Gibus

Sail shades provide spectacular effects, providing a highly functional solution.
